Examinations Abroad

According to the Examination Policies, sections 9.1 and 9.2, the Study Board of Energy can approve conducting examinations abroad when the student cannot take the exam in Denmark due to practical or economic reasons. The examination should be conducted as a video conference or using other technical measures in accordance with the requirements specified in 9.1. and 9.2.

The Study Board of Energy hereby grants a general dispensation enabling examinations to be conducted abroad, both oral and written examinations. The dispensation will be available at the homepage of the Study Board.
